BS Microbiology

SUMMARY

Recent graduate from pharmacy school in Maine with PharmD degree. Possesses seven years of pharmacy experience in a retail setting in Washington state. Excellent interpersonal skills matched with a history of establishing positive relationships with patients, pharmacy colleagues, and fellow medical professionals. Seeking a pharmacist position that will utilize extensive pharmacy education, clinical training, and provide the opportunity to practice high-quality, patient-centered, and interprofessionally collaborative health care.

SKILLS

PHARMACY INFORMATICS: R, Python, Linux

ELECTRONIC HEALTH RECORD SOFTWARE: Epic, Meditech, GE Centricity

EMPLOYMENT

TARGET PHARMACY

Pharmacist Intern

Redmond, WA
Apr 2013 to Aug 2014

- Answered clinical drug information questions from patients and pharmacy staff
- Assisted in verifying accurate antibiotic dosing and dose intervals
- Processed medication requests from patients
- Interpreted prescriptions for patients via electronic patient profiles to minimize risk of DDIs and to identify possible contraindications
- Interprofessional collaboration with prescribers via telephone to ensure accurate and appropriate therapy to patients
- Prepared oral antibiotic suspensions for patients
- Provided patient education on proper medication usage and possible side effects

UNIVERSITY OF WASHINGTON, DEPT OF PHARMACEUTICS

Research Technician II (Lin Lab)

Seattle, WA
Jun 2010 to Aug 2012

- Primary research in identifying endogenous biomarkers for cytochrome P450 metabolism
- Extracted compounds of interest from human biological specimen via liquid-liquid extractions
- Conducted biological sample analysis via High-Performance Liquid Chromatography-Tandem Mass Spectrometry (HPLC/MS-MS)
- Compiled metabolomics database using Quadrupole-Time of Flight (Q-TOF) instrumentation

TARGET PHARMACY

Pharmacy Technician B

Redmond, WA
Aug 2007 to Apr 2013

- Processed medication requests from patients
- Prepared medication refills for final check by pharmacist
- Performed inventory and placed daily orders
- Organized outdated and overstocked medications for return to salvage

PROJECTS

VANCOMYCIN THERAPEUTIC DOSING AND MONITORING PROGRAM

Conducted retrospective outcomes evaluation on pharmacist-driven vancomycin dosing and monitoring protocols in inpatient and acute care settings. Spearheaded data analysis enhancement with pharmacy informatics integration to automate data collection.
